MIRAGE FURNITURE

Hand-woven for a life outdoors.

FOR INTERIOR DESIGNERS, ARCHITECTS & HOSPITALITY

EST. 2004

Owned and operated by George and Kally, Mirage Furniture has handcrafted bespoke outdoor furniture, lovingly made to order, since 2004.

Every piece is built in our White River workshop: welded aluminium frames hand-woven with the latest-generation REHAU® Raucord polymer weave by our team of skilled artisans, made up primarily of previously unemployed women who take immense pride in their craft. We work closely with interior designers, architects, hotel groups and lodge operators, as well as luxury residential clients, giving every project white-glove attention from enquiry to delivery.

HAND-WEAVING THE REHAU® WEAWE IN THE MIRAGE WORKSHOP

REHAU® Raucord: a German-engineered polymer-fibre weave, purpose-built for a life outdoors.

Unlike natural wicker or cheaper synthetic alternatives, REHAU® Raucord will not crack, split, dry out or rot, regardless of climate. Specify it poolside, coastal or in full sun with confidence.

This holds up in the field, not just on the spec sheet: early Mirage installations are still in daily use after ten, sixteen years and more. Cheaper wicker alternatives typically need replacing within a few seasons, so specifying Mirage the first time means fewer replacement cycles across the life of a project.

PERMANENTLY COLOURFAST

UV-stabilised formula; no bleaching or fading in full African sun.

WEATHERPROOF

Impervious to rain, humidity, salt air and pool chemicals.

HOLDS ITS SHAPE

High tensile strength; no sagging, stretching or warping in daily use.

MAINTENANCE-FREE

A damp cloth or a garden hose is all it will ever need.

WELDED ALUMINIUM FRAMES

Lightweight, corrosion-resistant and structurally strong.

GUARANTEED

Guaranteed to hold its colour and shape, built to last decades.

7 MM STRAIGHT WEAVE, WHITE WASH

01

Armchairs

Generously proportioned woven lounge chairs with arms, for relaxed outdoor seating.

7 PIECES

ELITA ARMCHAIR

A premium armchair hand-woven from German-engineered REHAU® RAUCORD polymer weave onto a welded aluminium frame. The materials are UV-resistant, weatherproof, chemical-resistant and eco-friendly, lightweight yet strong, and low-maintenance. Available in a...
